EDUCATION

Imperial College London

Masters of Engineering, Electronic and Information Engineering

- Incoming.

London, UK

Sept 2025 — Present

Dartford Grammar School

International Baccalaureate Diploma Programme

- Higher Level: Mathematics AA, Physics, Computer Science.
- Standard Level: Economics, English Literature, Japanese ab initio.
- **Predicted:** 41/45 points with 7,7,7 at Higher Level.

Dartford, UK

Sept 2023 — May 2025

WORK EXPERIENCE

Cisco Pathways

Cisco UK

July 2023 — July 2023

Bedfont, London

- Worked hands on with Cisco to gain an insight into the different roles available at Cisco as well as in the Computer Science industry.
- Explored key topics such as Ethics, Custom Experience and intermediate networking knowledge.
- Employed our skills in a Dragons Den presentation on the final day, ultimately leading to my team securing a win! (and some cool merchandise)

PROJECTS

Maintainer, autumn-py (github.com/useautumn/autumn-py)

June 2025 — Present

- Rewrote [Autumn's](#) (YC F24) Python SDK, equipping it with asynchronous support via aiohttp.
- Redesigned backend route to be framework agnostic. Moved away from framework specific implementations to a universal ASGI implementation.
- Documented usage both on Autumn's Mintlify and Sphinx docs.
- Maintaining for future API changes.

Maintainer, imoog (github.com/justanotherbyte/imoog)

Nov 2023 — April 2024

- Maintain open-source database-based CDN node with 100+ downloads.
- Built support for MongoDB and PostgreSQL databases (and other drop-in replacements), with support to easily write custom drivers.

EXTRACURRICULAR ACTIVITIES

Competitive Programmer

Jan 2024 — Present

- Participated in the British Informatics Olympiad and achieved **Best in School**.
- Participated in the PERSE team challenge, achieving **Distinction** and **Best in School** for two years.

IRIS Big Data: ATLAS

October 2023 — Jan 2024

- Researched the Z^0 boson, writing a research poster titled: ***Finding the invariant mass of the Z^0 boson via decay product summation.***
- Presented my findings at a research conference in London.

SKILLS

- **Programming Languages:** Python, Rust, TypeScript, HTML/CSS, C/C++
- **Technologies:** Git, Tailwind CSS, Google Cloud Platform, Cloudflare Workers, Django, Flask, Starlette, Linux, NumPy, PyTorch, Scikit-Learn, Stripe
